You can start making money this very minute by sending people to see my sales letter, using the custom URL you were given.

When anyone buys from your link, 100% of the payment goes directly into your PayPal account. That's right, every last penny.

I am using this report to build my list of loyal readers at **EntrepreneurCulture.com**. In exchange for your help in this, I am more than happy to let you have the 100% of the full selling price of the report. Get an e-mail out to your list today ... or put a link to the sales letter on your blog right now and watch those deposits start rolling into your PayPal account.

**Because this eBook is very inexpensive,
it sells very well.**

Just by sending people to see the sales letter, using the custom URL you were given, you'll get your whole investment back in just one sale, then you can go on, go on to earn 10X ... 100X ... or even 1000X your initial investment.

Don't let this easy way to put some quick money into your PayPal account get away from you. It only takes a minute to put it into action:

Step 1 – Replace **"YourPayPal@EmailAddress.com"** in the following URL with **your own PayPal e-mail address**:

<http://www.EntrepreneurCulture.com/?e=YourPayPal@EmailAddress.com>

If your email address were Joe@shareyourstate.com the new URL would read:

<http://www.EntrepreneurCulture.com/?e=Joe@shareyourstate.com>

Step 2 – Use this new link when you write to your mailing list.

Step 3 – Use this new link when you write about this offer on your blog or website

Why Super Affiliates Love To Promote My Products

They love my Instant 100% Commission (It's like having your own product!)

I give 100% of the commission to my affiliates. I do this because I still make money when people buy the products linked to in this eBook, and because it still builds up my email list every time somebody buys. I use scripts that have those 100% commissions go directly into the affiliate's PayPal account—as soon as somebody buys.

**I never see it, or touch it.
Their money goes straight to them.
Your money will go straight to you.**

#2: Because this eBook sells for next to nothing, it sells very well.

#3 There is No Sign-Up Process

I use a simple affiliate link method so that affiliates don't have to sign up to anything to be able to sell the product. There is no form to fill out, no approval process, nothing.

Just replace the affiliate link with your own PayPal email address, and start sending people in to read the sales letter. Affiliates like this because they can literally make back their \$7 investment times immediately and keep on selling to earn ten (or a hundred or a thousand) within minutes after buying the eBook themselves. If you have a list, or a blog, or a website, YOU can be making minutes in just a few minutes too.

Here's to your success.

Subject Line: [%FirstName%], The Vehicle of Top Marketers Today...

Body of letter:

Hi [%FirstName%],

Did you know? More than 90% of the successful Internet Marketers that you and I know of today are making it big through owning products and even membership sites?

While this statistic is informal, it's quite obvious since marketing hard-hitters that you're probably subscribed to right now - I would bet most of them easily own at least one membership site.

It's easy to understand why these marketers have elected membership sites to be one of their main vehicles to success. After all, membership sites often are targeted at 3 things:

- 1.1. Make money.
- 2.2. Collect leads.
- 3.3. Make even more money!

It's also what you call a "My Marketing" brand of your own.

While starting your own membership site can be one of your best decisions as an Infopreneur, the truth is that starting your own membership site doesn't necessarily come any easier. And believe it or not, half of the battle to membership success starts with choosing the right membership site report and script that works for you.

Now there are gazillions of membership site report and script that simply don't work the way you want on the Internet. I'm sure you can see it, too.

But what if I told you -- that is your big break?

Subject Line: [%FirstName%], Membership Sites vs. Newsletters

Hi [%FirstName%],

At my web site,

<http://www.EntrepreneurCulture.com/?e=YourPayPal@EmailAddress.com>, I have shared with you 4 very good reasons why you should start your own membership site.

Well, here's another super good reason. :-)

Do you run your own online newsletter publication by any chance?

When you send emails to your subscribers, I'm certain that you're aware that in order to comply with CAN-SPAM laws, you have to provide the un-subscription link at the bottom of every mail you send out.

While it's not much different when sending email to your members, this is where membership sites and newsletters can vary significantly.

Believe it or not: in most cases, membership site un-subscription rates can be WAY lower than that of newsletters. The reason is simple: when running your own online newsletter, your subscribers are only one click away from un-subscribing should

they no longer wanted to receive emails from you.

But if you run a regularly updated membership site or offer a long-term service, your members have to think twice before losing their membership access with your site!

The long-term result: you get to keep even more members in the long run through expert use of membership sites!

Now, isn't it about time you start your own?

Until the next time!

Warm Regards,

Subject Line: [%FirstName%], Is Starting a Membership Site for You?

Hi [%FirstName%],

While anybody can start a membership business on the Internet, the question is: should you?

Many people who decide to start a membership site business are likely doomed to fail owing completely unrealistic expectations.

Before you attempt to start a membership website business you need to do a reality check:

First, if you really think that you can build a couple of web pages, invest little or no money, time or effort and start making an income tomorrow, then you are so wrong.

As with anything else, building a business any business takes time. It also takes a monetary investment, a lot of effort and energy, and, above all else, patience, passion for the theme of the website, and a drive for success.

But if you have pretty much made up your mind in starting your own profitable membership site from home, I strongly recommend that you secure yourself a copy of "Membership Fortune For Newbies" and "just do it"!
